## Curriculum Connections Grades 11-12

---

### Introduction

CHF's lessons meet various curriculum requirements for Grades 11-12 students across Canada. The lesson topics cover both school board and provincial ministry initiatives such as character education, global education, social justice, social responsibility and the environment.

This section outlines the links to the Ontario Curriculum for each lesson, including grade, subject, strand and overall expectation connections for grades 11-12. Links to the Language curriculum have not been specified; however, all lessons incorporate and satisfy part of the Language curriculum.

Extension activities can involve further strands in Civics, Economics, Geography, History, Science and Social Sciences and Humanities. These lessons also satisfy some of the Catholic Graduate Expectations. **Revised April 2009**

## Lesson 1: What's Right with this Picture?

Subject	Grade	Course	Strand	Overall Expectation
Geography	12	Canadian and World Issues: A Geographic Analysis (CGW4U)	Geographic Foundation: Space and Systems	<ul style="list-style-type: none"> <li>Analyse the causes and effects of economic disparities around the world</li> </ul>
			Global Connections	<ul style="list-style-type: none"> <li>Evaluate the social, economic and environmental impact of the strategies for sustainable development implemented by a variety of individuals, organizations and institutions</li> </ul>
			Understanding and Managing Change	<ul style="list-style-type: none"> <li>Evaluate the effectiveness of short-term and long-term solutions to geographic problems and issues at the local, national and global level</li> </ul>
Geography	12	World Geography: Human Patterns and Interactions (CGU4U)	Geographic Foundation: Space and Systems	<ul style="list-style-type: none"> <li>Explain the influence of social, political, cultural, economic and environmental factors on human environments and activities</li> </ul>
			Global Connections	<ul style="list-style-type: none"> <li>Evaluate the effectiveness of international organizations in strengthening the links among the world's peoples</li> </ul>
Geography	12	The Environment and Resource Management (CGR4E)	Global Connections	<ul style="list-style-type: none"> <li>Evaluate the effectiveness of international efforts to deal with global environmental issues</li> </ul>
Politics	12	Canadian and World Politics (CPW4U)	Participation in the International Community	<ul style="list-style-type: none"> <li>Evaluate the role of Canada and Canadians in the international community</li> <li>Describe the structure and function of international intergovernmental and non-governmental organizations</li> </ul>
Social Sciences & Humanities	11	Living Spaces and Shelter (HLS3O)	Shelter for Everyone	<ul style="list-style-type: none"> <li>Demonstrate an understanding of social realities related to living spaces and shelter in Canada and abroad</li> </ul>
Social Sciences & Humanities	12	Challenge and Change in Society (HSB4M)	Social Challenges	<ul style="list-style-type: none"> <li>Demonstrate an understanding of the social forces that shape such [social] challenges</li> </ul>

## Lesson 2: Sustainable Livelihoods

Subject	Grade	Course	Strand	Overall Expectation
Economics	11	Making Economic Choices (CIC3E)	Economic Decision Making	<ul style="list-style-type: none"> <li>Identify the economic choices that individuals, organizations and societies must make because resources are scarce</li> </ul>
Geography	11	Physical Geography: Patterns, Processes and Interactions (CGF3M)	Human-Environment Interactions	<ul style="list-style-type: none"> <li>Explain how the earth provides both a habitat for life and a resource for society</li> <li>Evaluate the impact of natural systems on people and their activities</li> <li>Evaluate the impact of human life on the environment</li> </ul>
			Understanding and Managing Change	<ul style="list-style-type: none"> <li>Explain how human uses of the earth, especially uses involving technology, cause changes over time in natural systems</li> </ul>
Geography	12	Canadian and World Issues: A Geographic Analysis (CGW4U)	Geographic Foundation: Space and Systems	<ul style="list-style-type: none"> <li>Explain how the earth's natural and human systems are interconnected in multiple, complex ways</li> <li>Compare the cultural, economic and political aspirations of selected groups and the effects of their actions on local, national and global geographic issues</li> </ul>
			Human-Environment Interactions	<ul style="list-style-type: none"> <li>Analyze the impact of selected global trends on people and environments at the local, national and global level</li> <li>Analyze geographic issues that arise from the impact of human activities on the environment in different regions of the world</li> </ul>
Geography	12	World Geography: Human Patterns and Interactions (CGU4U)	Geographic Foundation: Space and Systems	<ul style="list-style-type: none"> <li>Explain the influence of social, political, cultural, economic and environmental factors on human environments and activities</li> </ul>
			Human-Environment Interactions	<ul style="list-style-type: none"> <li>Explain how humans have modified the natural environment to create particular landscapes</li> <li>Evaluate ways in which humans adapt or have adapted to the natural environment and natural phenomena</li> </ul>
